A Note from the Principal:

GMS recently conducted a Parent Satisfaction Survey of the parents of our elementary students. Over 75% of our parents completed the survey which is a success rate almost unheard of in terms of surveys. THANK YOU! The feedback was equally encouraging. There were many great comments written about our elementary teachers and we also were able to see some areas where we can improve. Thanks again to all the parents who took time to give us this very important evaluation.

This survey has encouraged me to continue to spread the word about GMS. We are striving to provide a great education and to instill in our students a desire to seek, trust, and serve God. Our teachers are praying daily for their students and are doing an excellent job in meeting their educational needs.

If you know of families that have young children who are not receiving an education that is based on a biblical worldview, please encourage them to consider GMS as an option.

I. Duane Miller

Our high school J-Term has come and gone and our students are once again back in their regular routine and classes. Our students this year participated in some of the most enjoyable, and, in some cases, life changing classes of their high school careers. Thank you for your prayers for the Haiti trip. Those fifteen students had a cultural experience they will never forget. They came back with a new perspective on life.

Here at home, students were given excellent instruction in Cooking, Photography, Illustrative Art, Shakespearean Drama, History, and a wide variety of sports. These classes also provided a new perspective for students as they move forward in allowing God to use them in every area of their lives.

The Local Missions class served our community and gained invaluable insight into the needs of our own community and how they can also be used of God.
